Project Initialization and Planning Phase

Date	05october 2026
Team ID	SWTID-2026-7960
Project Name	Import Data using Transform Maps (Spreadsheet) in ServiceNow

Define Problem Statements (Customer Problem Statement Template):

- **Customer Persona / Who is experiencing the problem? HR Administrators, System Integrators, and Database Managers utilizing the ServiceNow platform.**
- **What is the problem? Manually entering or updating bulk employee data from external spreadsheets into ServiceNow is time-consuming, highly prone to human error, and creates duplicate entries upon re-imports.**
- **When does the problem occur? During initial organizational data onboarding, periodic roster updates, and routine employee record migrations.**
- **Where does the problem occur? Within enterprise ServiceNow Personal Developer Instances (PDIs) and HR management modules.**
- **Why is this a critical issue? Inaccurate or redundant data degrades overall database integrity, wastes valuable administrative hours, and leads to faulty reporting.**
- **What is the desired impact / Ideal Solution? To implement an automated data ingestion pipeline using ServiceNow Import Sets and Transform Maps, leveraging the Coalesce feature to prevent duplicates and ensure seamless, accurate data synchronization.**

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A male applicant seeking a loan.	Secure a loan for the property	Married with no co-applicant income.	Self-employed with a good credit history.	Optimistic about loan approval.
