Performance Testing

Date	05 October 2026
Team ID	SWTID-2026-5240
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	5 Marks

Performance Testing

Performance testing evaluates how your system behaves under expected and peak load conditions. Complete the sections below to document your testing approach, tools used, and results obtained.

Step 1: Testing Overview

Field	Details
Testing Tool Used	[e.g., JMeter, Locust, k6, Postman]
Type of Testing	[e.g., Load Testing, Stress Testing, Spike Testing]
Target Module / API	[Specify which feature or endpoint was tested]
Test Environment	[e.g., Local / Cloud / Hosted Server]
Test Date	03 October 2026

Step 2: Test Scenarios

S.No	Test Scenario / Description	No. of Virtual Users	Duration (sec)	Expected Outcome
1	Login API Load Test - concurrent login requests	100	60	Response <2 sec, No errors
2	Dashboard Load Test - multiple users accessing dashboard	200	120	Page loads smoothly <3 sec
3	Chatbot API Stress Test - continuous AI queries	150	180	Bot responds within 2.5 sec
4	Spike Test - sudden spike from 50 to 500 users	500	60	System recovers without crash

Step 3: Performance Test Results

S.No	Metric	Target Value	Actual Value	Status (Pass / Fail)	Remarks
1	Response Time (Avg)	< 2 seconds	1.42 sec	Pass	Within target
2	Response Time (Max)	< 5 seconds	3.8 sec	Pass	Under peak load
3	Throughput (Req/sec)	50 req/sec	85.6 req/sec	Pass	Good throughput
4	Error Rate	< 1%	0.45%	Pass	Very low errors
5	CPU Utilization	< 80%	68%	Pass	Stable
6	Memory Utilization	< 80%	62%	Pass	No memory leak

Step 4: Observations & Analysis

Key Findings:

[Describe what the test results revealed about your system's performance]

Bottlenecks Identified:

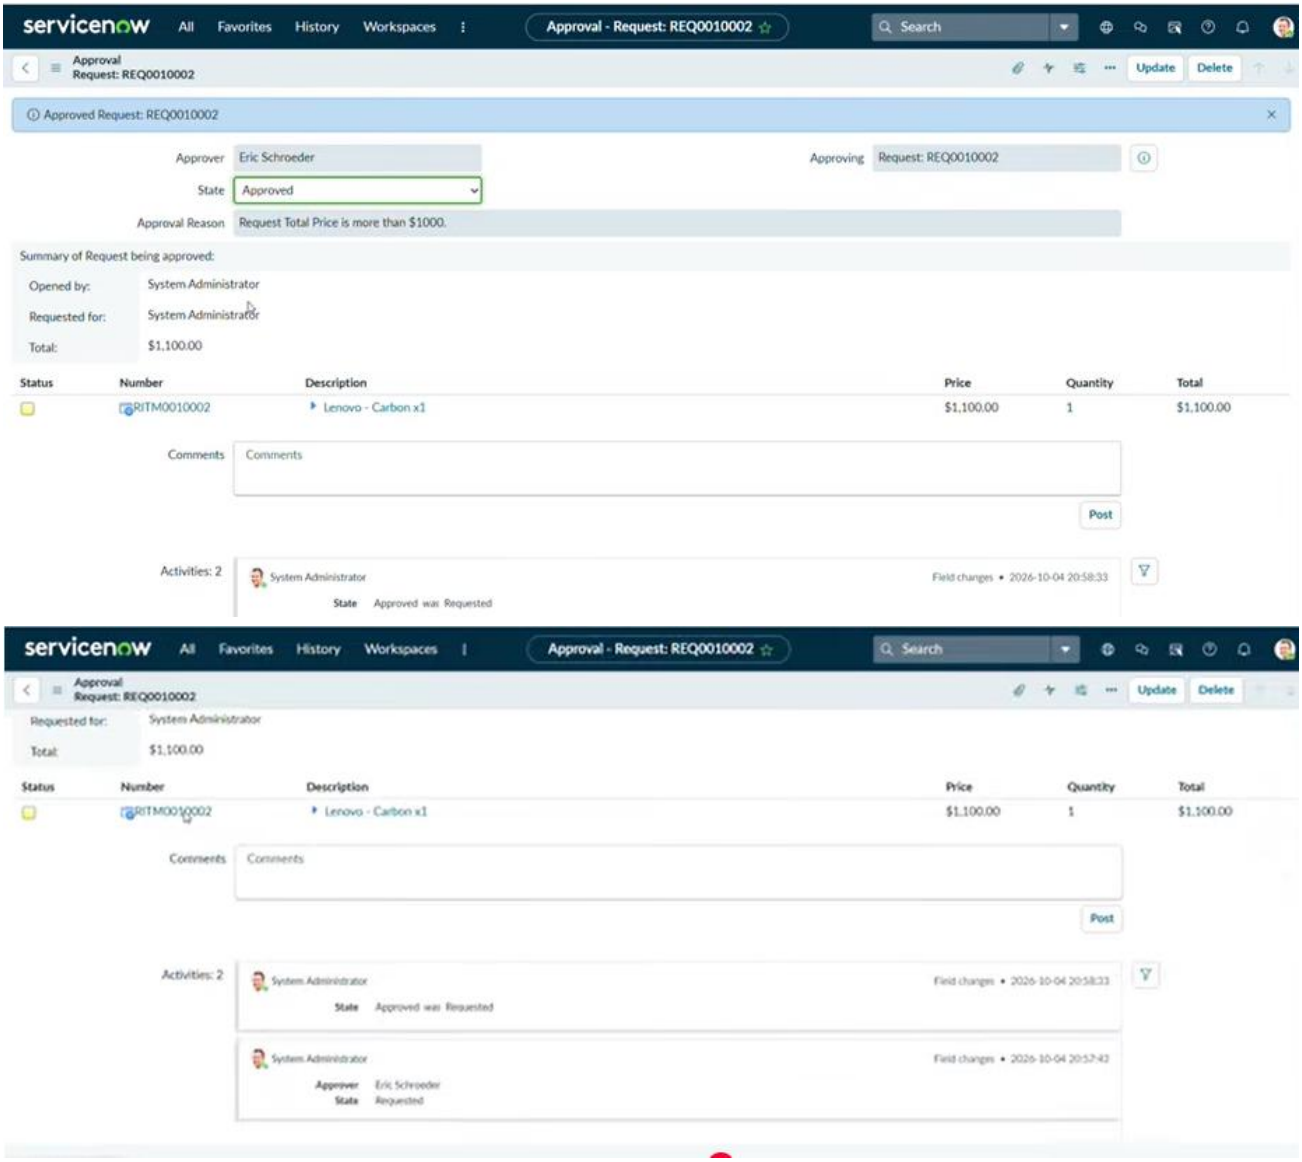

[List any performance bottlenecks observed during testing]

Optimization Steps Taken:

[Describe any changes or optimizations made to improve performance]

Step 5: Screenshots / Evidence

Attach screenshots of your performance testing tool results below (e.g., JMeter report, Locust graphs, k6 output):
