Project Demo Planning

Date	5 October 2026
Team ID	SWTID-2026-5240
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	5 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Overview of the project and current challenges in manual exam evaluation	2	Member 1
2	Solution & System Architecture	Highlighting AI/ML approach for automated mark generation	2	Member 2
3	Live Feature Demonstration	Live demo showing answer sheet upload, NLP evaluation, and score output	5	Member 3
4	Key Advantages & Performance	Presentation of accuracy metrics, speed, and fairness in grading	2	Member 4
5	Conclusion & Future Scope	Summary of results and potential future improvements.	1	Member 1
6	Q&A Session	Interactive question and answer session with evaluators/judges	3	All Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Brief introduction of the team and explanation of how manual evaluation is time-consuming and prone to human error.
2	Solution Overview	Demonstrating the Intelligent Exam Mark Generation flow, system workflow, and technology stack (NLP/Machine Learning).
3	Live Feature Demonstration	Performing real-time evaluation: uploading answer keys/student responses, showing instant score generation, and detailed mark breakdowns.
4	Q&A Session	Answering questions regarding model accuracy, edge cases, scalability, and security
